Bloomz Security Pledge

Bloomz was created to promote and facilitate communication between schools and families in a safe and private environment. Parental engagement, which is proven to help improve student performance, requires open communication channels and straightforward coordination and collaboration between educators, students and their families.

In order to provide this environment, Bloomz complies with regulations like FERPA and COPPA, and all applicable privacy laws. Bloomz is also a signatory of the Student Privacy Pledge, taking responsibility to both support the effective use of student information and safeguard student privacy and information security.

To meet these guidelines, Bloomz has created a platform that accounts for privacy and security at both the front end, where teachers, students and parents interact with our service, and the backend where all information is stored and organized. For example, users can receive messages via text message, mobile app, or email, but contact information like phone numbers and email addresses are only visible to class and school administrators and not exposed to others. We have also implemented strict advanced cloud computing practices and policies to ensure the integrity of the data we manage. We strive to bring best-in-class security and controls to users and educational organizations, and continually work with school and district administrators to build upon our existing infrastructure.

This document provides an overview of the policies and practices that comprise our security approach.

Overview

Bloomz's approach to security consists of the following components to maintain data security and integrity:

1. Internal policies
2. Identity security
3. Physical security
4. Server security
5. Database & Software security
6. Privacy principles
7. Regulatory compliance

Each of these components are described in more detail below.

Oversight of Subcontractors: In the event that Vendor engages subcontractors, assignees, or other authorized agents to perform one or more of its obligations under the MLSA (including any hosting service provider), it will require those to whom it discloses Protected Data to execute legally binding agreements acknowledging the obligation under Section 2-d of the New York State Education Law to comply with the same data security and privacy standards required of Vendor under the MLSA and applicable state and federal law. Vendor will ensure that such subcontractors, assignees, or other authorized agents abide by the provisions of these agreements by: [NA]

Duration of MLSA and Protected Data Upon Expiration:

The MLSA commences on [5-31-2023] and expires on [6-30-26].

Upon expiration of the MLSA without renewal, or upon termination of the MLSA prior to expiration, Vendor will securely delete or otherwise destroy any and all Protected Data remaining in the possession of Vendor or its assignees or subcontractors or other authorized persons or entities to whom it has disclosed Protected Data. If requested by Erie 1 BOCES and/or any Participating Educational Agency, Vendor will assist a Participating Educational Agency in exporting all Protected Data previously received back to the Participating Educational Agency for its own use, prior to deletion, in such formats as may be requested by the Participating Educational Agency. In the event the Master Agreement is assigned to a successor Vendor (to the extent authorized by the Master Agreement), the Vendor will cooperate with Erie 1 BOCES as necessary to transition Protected Data to the successor Vendor prior to deletion.

Neither Vendor nor any of its subcontractors or other authorized persons or entities to whom it has disclosed Protected Data will retain any Protected Data, copies, summaries or extracts of the Protected Data, or any de-identified Protected Data, on any storage medium whatsoever. Upon request, Vendor and/or its subcontractors or other authorized persons or entities to whom it has disclosed Protected Data, as applicable, will provide Erie 1 BOCES with a certification from an appropriate officer that these requirements have been satisfied in full.

Challenging Accuracy of Protected Data: Parents or eligible students can challenge the accuracy of any Protected Data provided by a Participating Educational Agency to Vendor, by contacting the student's district of residence regarding procedures for requesting amendment of education records under the Family Educational Rights and Privacy Act (FERPA). Teachers or principals may be able to challenge the accuracy of APPR data provided to Vendor by following the appeal process in their employing school district’s applicable APPR Plan.

Data Storage and Security Protections: Any Protected Data Vendor receives will be stored on systems maintained by Vendor, or by a subcontractor under the direct control of Vendor, in a secure data center facility located within the United States. The measures that Vendor will take to protect Protected Data include adoption of technologies, safeguards and practices that align with the NIST Cybersecurity Framework and industry best practices including, but not necessarily limited to, disk encryption, file encryption, firewalls, and password protection.
